

Dear Prospective Patient,

Thank you for choosing DeRosa Medical for this important aspect of your life: ***Your Health Care***. You have made an important step towards getting your medical health evaluated and treated in a comprehensive and balanced fashion. We pride ourselves on offering exceptional health care in a warm and inviting environment; creating a more personalized feeling that revitalizes the physician-patient relationship.

At DeRosa Medical, we are committed to making sure your treatment and visits with us are as positive as they can be. In order to ensure that you have a wonderful first visit at DeRosa Medical, we ask that you take the time to complete all the pre-appointment forms our staff has instructed you to fill out. In addition, if you are asked to obtain lab work prior to your appointment, that you do so at least 1 week prior to your appointment, to avoid having to reschedule this appointment.

If you are using your insurance to pay for your lab work, please contact them first to find out if the lab panels we are ordering are covered and that you visit the correct lab site (Sonoran Quest or Lab Corp). You may also be required to provide our staff with certain medical documents or testing before certain procedures.

Please make sure to bring these with you to your visit or have them faxed ahead of time to 480-619-4098. We appreciate the privilege of servicing your health care needs. We look forward to meeting you!

The Staff at DeRosa Medical
